DR. PUSALA SRINIVASA KARUNANIDHI a Veterinarian with extensive professional experience as a faculty, researcher and extension specialist. He has a vast life experiences in India, West Indies (Jamaica) and USA. A native of Tirupati, he studied in highly reputed Veterinary Institutions i.e. College of Veterinary Science, Tirupati for graduation, Madras Veterinary College, Chennai for post graduation and College of Veterinary Science, Ludhiana, Punjab for Doctorate in Veterinary Medicine.

He acquired vast experience in teaching, research and extension by working in various capacities in organizations like JNKVV, Jabalpur, Madhya Pradesh, Andhra Pradesh Animal Husbandry Department, ANGRAU, Hyderabad and SWU, Tirupati. He has also worked as consultant cum manager for private Dairy, Sheep & Goat farms in Jamaica and USA.

Visited most of the states in India and has got the basic understanding of Animal Husbandry Activities and rural life in India. He has participated in a number of mass contact programmes like kisan mela, animal health camps and activities of NGOs Implanted the ideology of "LEARN WHILE YOU SERVE" in the minds of veterinary students and to use their professional skills in the maintenance of rural livestock health and production for the benefit of farming community. Simultaneously making awareness in rural community to develop " SELF DEPENDENCY" by managing various rural livestock industrial units such as small dairies, sheep and goat farming, small poultry units, animal fodder cultivation etc.

Identified some of the local rural socio economic problems and educated them through the cultural arts performed by the NSS student volunteers to resolve the problem to the possible extent - by including the ideology of "SELF HELP AND DEPENDENCY".

IN JAMAICA (WEST INDIES): Understood the agricultural life of Jamaican Indian people, Involved in the establishment and management of Century Dairy farm as FARM SUPERINTENDENT and managed six hundred Jamaica Hope Dairy Cows Health and Production and Quality Milk Production. Involved in Jamaican rural Goat Breeders Association and contributed professional skills in the health and management of goat farm industries in Jamaica.

IN USA: Worked for four years as DAIRY SCIENTIST in large commercial modernized 3000 HF and Jersey Purebred Dairy cow farm in Pennsylvania, USA and has got the modern concept of managing large size dairy herd operations.

Based on these above mentioned diverse and wide modern concept of commercial farm livestock industrial knowledge with advanced academic background, training and work experience in India and abroad, he was nominated to the Board of Management of SWU for his distinguished contributions. The Tirumala Tirupati Devasthanams (TTD), Tirupati has recognised and made him as their DAIRY ADVSIOR / DAIRY CONSULTANT particularly for their S.v. Foundation for Indigenous Cattle Development Project, Palamaner, Chittoor District, Andhra Pradesh.
