Dates EmployedJun 2017 – Present

Employment Duration6 mos
LocationHyderabad Area, India

Standardising Processes
Coordinating Training and recruitment Operations

After 20 years of stellar performance, I took premature retirement from the Indian Navy . I carry with me knowledge in diverse fields, but my strength is in people and process management. I have varied experiences in

- ° Project Management
- ° Team Building
- ° Change Management
- ° Data Analysis

With a strong foundation in Business Management I have fortified it with knowledge and experience in Big Data Analytics and Data Science.

My strength lies in managing cross-cultural and cross-functional teams, handling diversity and being equally at home with the back end team as with the top management.
