

Mr. Balasubramaniam Gauthaman is an Engineering Graduate with an Executive MBA and a Certified Project Management Professional (PMP) with over 22 years of diversified experience in the areas of -->> e-Governance, Program Management, Business/Government Process Re-engineering, Client Relations Management (Account Management), Operations Management, Talent Acquisition & Resource Management, Training/Change Management.

Currently functioning as the General Manager-IT, for the Telangana State Medical Services & Infrastructure Dev. Corporation, HM&FW Dept., Mr.Bala handles the roll-out of e-Health Project in the State of Telangana in addition to managing other ICT initiatives of the Department.

The Major Accomplishments -

- (i) Designed and managed implementation of one of the major e-Governance initiatives for the Gol, the Limited Liability Partnership (LLP) Act, India under the Ministry of Corporate Affairs. LLP Act is the first Act in India that has been administered via e-governance mode from the start.
- (ii) Designed electronic payment process including reconciliation as per Government accounting procedures, for the LLP act. Coordinated with banks & other stakeholders for implementation of the payment process.
- (iii) Successfully proposed and implemented the IFHRMS (Integrated Financial & Human Resources Management System) for the Government of Haryana, which included the e-Receipts System for all Government Receipts. The State received various awards and accolades at various forums for the same.
- (iv) Instituting the e-Health MMP for the States of Andhra Pradesh and Telangana.
- (v) The e-HMS Telangana project has set a benchmark for all other states in the country today, by successfully completing the Pilot phase and soon the project is to be rolled-out across the State of Telangana. The project has received awards at various forums and appreciation from Gol Officials.
