

### **Dr V V Mani:**

Dr V. V. Mani received her B.E, M.E degree in Electronics and communication Engineering from College of Engineering, Andhra University, India in 1992, 2003 and PhD in Electrical Engineering from Indian Institute of Technology , Delhi, India in 2009. Presently she is working as Assistant Professor in ECE dept. of National Institute of Technology, Warangal, India since April 2008. Prior to joining with NIT Warangal she Worked as Software Engineer Capricon Global Solutions Pvt. Ltd, Hyderabad, Worked as Assistant Professor at GITAM University and Full Time Research Associate at Indian Institute of Technology Delhi (IITD), India.

Her dissertation topic was Smart antenna design techniques for Ultra Wideband Communication. Her area of interest includes wireless communication, Signal processing for Communication. She has more than 30 papers in credit in national and international conferences and Journals. She supervised 2 Phd students and currently 4 more students are working under her towards their dissertation. She completed 2 projects and one is ongoing. She visited Virginia tech USA, Kings college London, Singapore, Cape Town, South Africa, Kaulalampur Malaysia, Paris- France,Doha-Qatar, Thessoloniki-Greece and presented her research papers. She spent 3 months at RICE University, Texas, USA under research exchange program.

She is a fellow of Institute of Electronics and Telecommunication Engineers (IETE), India and member of IEEE.
