

Based on your examination, comment on ::

- 1. What is the difference in their attitude ? How do they see their work differently ?**
- 2. How does this affect the way they behave / act ?**
- 3. How will this impact**
 - (a) the quality of their work ?**
 - (b) their own self-respect ?**
 - (c) the residents of the locality?**

Who is a Worker at work ? Why ?

Examine the story.

For Ratan, a municipality sweeper, work is a means to earn a livelihood –

My duty time is over
– I'm off for the day!

- He puts in the number of hours he is supposed to
- He finishes all his duties in a routinized or mechanical way

Kamal, also a municipality sweeper, sees his work as important, because he gives people in the locality, a clean and hygienic environment to live in (it is not just a means of livelihood)

Only if the locality is kept clean, the people will be able to lead a disease-free life

- He pays attention and takes care to do his work well
- Cleanliness of the surroundings matters to him (he is not limited to his duty hours or locality he is assigned)
