The **SDGs** are ...

- A set of 17 goals for the world’s future, through 2030
- Backed up by a set of 169 detailed Targets
- Negotiated over a two-year period at the United Nations
- Agreed to by nearly all the world’s nations,

on 25 Sept 2015
What is new and different about the 17 SDGs?

First, and most important, these Goals apply to 
*every* nation ... and every sector. Cities, businesses, schools, organizations, *all* are challenged to act. This is called

Universality
Second, it is recognized that the Goals are all interconnected, in a system. We cannot aim to achieve just one Goal. We must achieve them all. This is called Integration.
And finally, it is widely recognized that achieving these Goals involves making very big, fundamental changes in how we live on Earth. This is called **Transformation**
